

IWM organized a successful training program on Environmental Impact Assessment (EIA)

A glimpse of the participants receiving training on Environmental Impact Assessment

Institute of Water Modelling (IWM) organized a 05-day training on **Environmental Impact Assessment (EIA)** during 13-17 November 2022 at IWM Bhaban, Uttara, Dhaka. In total, 22 trainees from government sectors as well as non-government sectors actively participated in the training program. The highly experienced resource persons were selected from different disciplines from academicians and practitioners.

According to the feedback received from the participants, the training program was highly beneficial to them as it included lot of case studies and real-life examples and modelling tools for water quality, air quality and noise. On completion of the program, certificates were distributed among the participants by the management of IWM. IWM looks forward to organizing such training programs on a regular basis.
